If you are unable to keep or need to cancel an appointment, please give us at least 24 hours' notice. Please be advised that patients who miss two or more appointments in succession, habitually cancel at short notice, or frequently arrive late to appointments risk the termination of registration with Briggate Dental and may still be charged.

Emergency Dental Services

Please contact us about dental emergencies during normal working hours and we will make every effort for you to be seen by one of our dentists as soon as possible. For out of hours dental emergencies and urgent care, please contact the NHS 111 service [open 24/7] or visit their website: www.111.nhs.uk.

Charges

Any treatment offered [either NHS or privately] will be estimated, discussed, and agreed with patients in advance.

Private patients can choose to become a Denplan member. This is an insurance scheme where the cost of dental care is spread across regular monthly payments. Denplan payment plans also give patients access to discounts on any treatments required. Further information can be obtained by contacting the practice.

Payment for treatment can be made by cash, card or BACS.

Access and Facilities

Brigate Dental has three first-floor surgeries. The practice has a patient waiting area and WC facilities on the ground floor. Due to having Grade II listed building status and subsequent planning restrictions, unfortunately the practice has no wheelchair access.

Due to infection control reasons, the practice is unable to provide magazines for patients or toys for children.

Directions

Brigate Dental is situated on Lower Briggate in Leeds city centre. There is no parking available at the practice, however there are a number of carparking facilities close by. Failing this, our close proximity to local public transport hubs means our location is also great for those who would prefer to make use of public transport, or indeed those travelling in from further afield.

Practice Policies

Brigate Dental has a number of policies to ensure the best possible care is provided to patients. All patient information is processed in line with the Data Protection Act 1998 and the practice is fully compliant with GDPR 2018. All personal information is handled with care and treated with the strictest confidence.
